

# GUIDED BY VENUS LYRICS

## Guided By Venus

Love, herald the dawn  
You and I reborn  
And our ship is strong  
And has weathered the storm  
You and I reborn

Love, herald the night  
Bless the dying light  
For, even in shadow  
You are wise, you are wise  
And your star shines brightly

Great uncharted sea  
We have set sail upon  
Guided by Venus  
And we long to be deep  
And we long to be free  
And we long to behold what we know  
Is so sacred between us  
Hope carries us through  
You may feel I'm far away  
But I am right next to you  
Great uncharted sea  
Teach us to love  
To love  
To love and be free

Love, needing to grow  
Fades where it can't flow  
And the way is wild  
But darling, we know  
That we're strong, that we're strong  
So it's on and it's on and it's on and it's on!

Great uncharted sea  
One day we're floating on Love  
Next day we're sinking  
So far from the shore  
I don't know anymore  
Whether to follow the way that I feel  
Or the way that I'm thinking  
Oh Love, born of the wave  
Those of us following you  
Are we foolish or brave?

Do you lead us ashore?  
Do you lead us astray?  
You, who sends sailors to Sirens and Helen to Troy  
Do you lead us to pain?  
Do you lead us to joy?  
Great uncharted sea  
Teach us to love  
To love

Great uncharted sea  
We have set sail upon  
Guided by Venus  
Great uncharted sea  
Teach us to love  
To love  
To love and be free

## **LILITH**

Rapture ripe and sweet  
Oh, the Earth is divine and is calling us to eat  
Eden is here and the world is new  
I'll eat whatever I want to

Serpent on my skin  
Oh, the Earth is divine and is shimmering within  
I eat the fruit of the sacred tree  
I know the wisdom within me

Garden of delight  
Oh, my body is warm and as fragrant as the night  
Eden is here and it calls to you  
We'll eat whatever we want to

## **PALE MOON**

Pale moon in daytime sky  
I hear you calling out to me  
In vapours  
Calling out to me  
In vapours  
And light  
And light  
And light  
And light  
As mutable as I

Pale moon in daytime sky  
I hear you calling out to me  
In vapours  
Calling out to me  
In vapours  
Who am I?  
Who am I?  
Who am I?  
Oh, who am I to know  
How far the river will flow?

Pale moon in daytime sky  
Transparently you shine  
In vapours  
Transparently you shine  
Weightless  
With sky behind  
With sky behind  
With sky behind  
With sky behind  
As mutable as I

## **THE ECHOING SKY**

My life is so like a dream  
Some days I feel I can fly  
I can fly, then like a dream  
It's over

Circular thoughts strangle me  
Tying my mind to the ground  
To the ground when I could fly  
The Echoing Sky

My life is so like a dream  
Walking the line in between  
In between the worlds  
It seems I'm falling  
Somewhere beyond what I know  
Images swim through my mid  
Through my mind where I can find  
The Echoing Sky

## **YOUR SOUL IS A LANTERN IN THE DARK**

You have been going through  
A trial by fire  
Everything you knew  
Is burning away  
Revealing what is true  
Nothing is brighter  
Than the soul that burns in you

Down in your deepest cave  
I've seen you hiding  
Trying to be brave  
And I've seen you cry  
Brave enough to feel  
A heart that is beating  
Opens to reveal

Your soul is a lantern in the dark  
Your soul is a lantern in the dark  
Your soul, your soul, your soul  
Is a lantern in the dark

Hope will return again  
Rise like the Phoenix  
Naked from the flame  
Burn away the old  
Liberate the new  
Tell me my sister  
Is there more that I can do?  
Please tell me if there's more that I can do

Your soul is a lantern in the dark  
Your soul is a lantern in the dark  
Your soul, your soul, your soul  
Is a lantern in the dark

## **RADIATE**

And now you're here  
And now you're strong  
Seems so long ago  
That I offered that song  
And my heart was aflame  
And I'd known you so long  
Through eons and eons and eons and eons  
And oh, it was beautiful

And now you're here  
And your heart is true

And the blessings I gave  
How they're flowing through you  
And your hands are alive  
With a grace that was gifted to you  
By the Sun and the Moon  
And you're beautiful beautiful beautiful

Radiate your inner soul  
It's all up to you  
You're not fated to follow  
You're wise  
There's magic in your eyes  
And all I can do  
Is love you is love you is love you

I bow to Sun  
And I bow to the Earth  
And I hail the Moon  
For the gift of your birth  
And you'll always be loved  
And you'll always be free  
And remember the fire that flows through your fingers  
Is beautiful beautiful beautiful

Radiate your inner soul  
It's all up to you  
You're not fated to follow  
It's true  
The Universe is open to you  
And all I can do  
Is love you is love you is love you

Radiate your inner soul  
It's all up to you  
You're not fated to follow  
Be wild  
You'll always be my magical child  
And all I can do  
Is love you is love you is love you

## **MOONSET AND SUNRISE**

I'm awake before the dawn  
Dreams have fallen from my eyes  
I am waiting for the full  
Moonset and sunrise  
I am standing on a hill

City sleeps in lunar light  
And the air is holding still  
Kissing the fading light  
Kissing the fading light  
Suspending the moon  
On the floating horizon  
I'm awake before the dawn  
I can see the city rise  
I am witnessing the world  
Through my eyes

## **MY SISTER THE MOON**

I feel you now  
You're moving through me  
Life and death and life and death  
Over and over  
I feel you now  
Your raven hair  
And then you change  
You're fair and blue eyed  
Darling you are everywhere!

I feel you now  
You're low  
You're in my belly  
Moaning moaning  
Slow as creature from the hidden stone  
And here you come  
You're wild, you're wild  
Your hair streaming, eyes gleaming  
Crazed, ecstatic as a lunar child

My Love  
My Love  
Oh, my Love, Oh my Love, Oh my Love  
My Love  
My Sister the Moon

I feel you now  
You're moving through me  
Dressed in mist  
And kissed with vapours  
Of the hidden dawn  
You heal me now  
In velvet night  
You lay your cool hand softly on my soul  
And fill me with invisible light

My Love  
My Love  
Oh, my Love, Oh my Love, Oh my Love  
My Love  
My Sister the Moon

## **THE SERPENT OF SILVER**

Before the night is over  
Let's slip away my Lover  
Under the trees  
Where no one can find us  
Lie together deep and slow  
The Serpent of Silver  
Has found its way from my heart to your heart  
My mouth to your mouth  
But Oh  
How do we honour it?

As water flows through fire  
The endless path of desire  
Limitless life in endless creation  
Atom to atom  
Planet to star  
The Serpent of Silver  
The light that calls one thing to another  
Has travelled from your eyes to my eyes  
And onward my Lover

We passed the light between us  
In dream I called you to witness  
Love  
That's endlessly changing  
Shimmering from soul to soul to soul  
The Serpent of Silver  
Has found its way from my heart to your heart  
My mouth to your mouth  
But Oh  
How do we honour it  
The Serpent of Silver  
Has found its way from your heart to my heart  
Your mouth to my mouth  
But Oh  
How do we honour it

## JOHN RILEY

There was a maid in a garden  
In a garden  
When a strange young man  
Came wandering by  
He said dear maid, please will you marry me?  
To him these words she did reply

I'm sorry Sir  
I cannot marry thee  
For my true love  
Still sails the deep salt sea  
And he's been gone  
For seven years  
And his name is John Riley

But what if he  
In some battle is slain  
Or he has drowned  
In the deep salt sea  
Or he has found another true love  
And they by now both married be

Well then if he  
In some battle is slain  
Then I shall never smile again  
And if he's drowned  
In the deep salt sea  
Then I shall die  
Before ever married I'll be

And if he's found another Love  
And they by now both married be  
I wish them all the joy of true love  
Where ere they lie  
Or ere they be

He took her in his arms  
Oh so strong  
He gave her kisses one two and three  
He said, dear maid, I am your true  
I am your long lost John Riley  
He said dear maid, I am your true love  
I am you long lost John Riley

## **OUT OF THE DRY SUMMER**

I will bring water to you  
I will bring water to you  
Out of the dry, dry summer  
Out of the dry, dry summer  
Over strange lands I'll wander  
Over strange lands I'll wander  
Knowing that I will find you  
Knowing that I will find you

Where your red heart is beating  
Where your red heart is beating  
Burning as bright as fire  
Burning as bright as fire

All alone I will wander  
All alone I will wander  
Only the sky will see me  
Only the sky will see me

If I know that you need me  
If I know that you need me  
Then I will come  
From far far far far way  
Then I will come  
And nothing, nothing  
Will keep me away

I will bring water to you  
I will bring water to you  
Out of the dry, dry summer  
Out of the dry, dry summer

## **AS ABOVE, SO BELOW**

Earth below  
Stars up above you  
Remember the flow  
As above, so below

Born of the Universe  
Spiral unfolding  
Helix of galaxy  
Winding its spell in me  
Infinity Infinity Infinity Infinity .....

Born of the Universe  
Child of Mother Earth  
Who's born of the galaxy  
That spirals its spell in me  
Infinity Infinity Infinity Infinity .....

Earth below  
Stars up above you  
Remember the flow  
As above, so below

## **REPRISE**

What is there to say  
Ever onward!  
Now we've found the way to glide  
Sweetly through the day  
Softly through the night  
Knowing it will all be alright

Love will have its way  
Ever changing  
Trusting in the rolling tide  
Wind is in our sails  
Onward to the light  
Knowing that the stars still shine bright

Great uncharted sea  
We have set sail upon  
Now we are floating  
And I know we're deep  
And I know we're true  
I know the soul in me  
Honours the soul in you  
Over different seas  
Under different skies  
Oh, I must follow my heart  
To where the future lies  
Great uncharted sea  
Teach me to love  
Teach me to love  
To love and be free
